Sultan Bello Hall, University of Ibadan, Ibadan

OBJECTIVES

Motivated and results-driven Computer Science undergraduate seeking a challenging internship at a reputable organization. Offering a strong foundation in frontend web development, including expertise in React and Vite, with a proven ability to enhance user experience, develop efficient solutions, and collaborate effectively within cross-functional teams. Eager to contribute and grow within a dynamic work environment.

KEY COMPETENCIES

User experience enhancement	Cross-browser compatibility	State management
Responsive design	Performance optimization	API integration
Component-based architecture	Interactive UI development	Version Control

PROFESSIONAL EXPERIENCE

NFLOW Innovations

April 2024 - July 2024

Frontend Developer Intern

As a frontend developer intern, I enhanced the process of collecting user feedback, which improved the accuracy and relevance of design implementations. I also optimized existing web pages for better performance and responsiveness, contributing to a more seamless user experience and facilitating more informed, data-driven decisions within the development team.

OD / ICT Oyo State Secretariat, Ibadan

May 2023 - October 2023

Frontend Developer / IT Technician Intern

Assisted in managing IT activities within the office, ensuring smooth operation and timely resolution of technical issues. Developed and implemented a digital form for data collection from workers across Oyo State, streamlining data gathering processes and improving overall efficiency in information management.
